	Exceeds Expectations (3)	Meets Expectations (2)	Below Expectations (1)	No Evidence (0)	Total
Rubric					
Project Description	Student gives a comprehensive overview of their project; information is stated clearly	Student gives overview of project with some information missing; requires some clarification	Project not described fully; does not meet the requirements of the Honors in the Discipline	Component missing	
Objectives, Rationale, Significance	Student clearly states objectives, discusses the significance of the project, and why this research is important	Student gives an overview of each component, with some answers missing or lacking information	Not described fully, student is unable to express the rationale and significance of the project	Component missing	
Expected Results	Student clearly states expected results, is able to express how they will know if the project produces desired outcomes	Student gives a general overview of expected results, is not clear on how they will know if the project produces desired outcomes	Student is unclear on desired results and is unsure of how they will know if the project produces the desired outcome	Component missing	
Anticipated Impact	Student clearly states how they expect results of their project to make a difference	Student has some ideas on how results might make a difference	Student does not have an understanding or does not show interest in how their project might make a difference	Component missing	
Dissemination Plan	Student has a clear plan for how to disseminate results of the project	Student has some ideas on how to disseminate results of the project	Student is unsure on how to move forward with project dissemination	Component missing	
Timeline	Student provides a clear schedule for completing the stages of the project	Student has a vague schedule for completing the stages of the project	Schedule is missing key dates or may not be completed within two semesters	Component missing	
Literature Review	Student provides a comprehensive list of scholarly articles; citations are accurate	Student includes some scholarly articles or citations are not correct	Literature review is lacking scholarly articles or proper citations	Component missing	
				Total:	

Student has met academic standing requirements for the project:	Yes	No
Student has obtained a faculty mentor, project has been signed by mentor:	Yes	No
